

ANDERSEN WPT45

Medium Duty AC Pallet Truck

BUILT TOUGH AND BUDGET FRIENDLY

Our 4,500 lb capacity pallet truck is great for facilities that frequently handle loads at ground level. The construction of these powered pallet trucks includes components that provide smooth fast operation while keeping maintenance costs low. Ideal for crowded loading docks, work cells, and congested aisles.

4,500 lb. Capacity
Battery: AGM 224Ah
Internal smart charger
Travel speeds up to 3.5 mph

Max. Lift height: 8.2"
Lowered height: 3.25"
Fork length: 45.5"
Fork overall width: 27"

Quantity _____

PICK YOUR OPTIONS:

Load Backrest - 48" tall ----- \$308 _____

Load Backrest - 60" tall ----- \$395 _____

Stability casters ----- \$310 _____

Travel Control

The 24-volt travel controller works with the matching AC drive motor to provide high performance throughout the entire speed range. Highly accurate, infinitely variable travel speeds remain consistent relative to throttle position regardless of load-neutral braking. In addition, the ability to operate in a creep speed mode allows controlled operation in tight spaces.

Ergonomic Operator Handle

Travel, lift, and lower controls are accessible without having to lift the hand from the handle. Angle grips are designed to allow easy operation with either hand. Wrap around guard, reversing switch, thumb control, and horn are standard.

Tiller Arm Controls

Low mounted tiller arm offers excellent operator comfort and minimum steering effort. Crawl speed function with steer handle at 5° back-tilt from vertical allows for ease of use in tight areas. 180° steering arm makes turning the unit easy and effective.

Ease of Maintenance

Removal of two-piece power head cover exposes major components for inspection and maintenance.

Electrical

Separately fused power control circuits, quick disconnect power cut off, hour meter/battery discharge indicator combination gauge and lift lock-out.

Standard Features

Belly button reversing switch, emergency power disconnect, battery discharge indicator, key switch and internal battery pack and charger.
